** ARGENTINA. 28460 USB, Dec 12 at 2310, LU7YE, calling CQ and working a USA. QRZ.com: ``LU7YE Argentina flag Argentina, Gabriel "Gab" Dal Pietro, Plottier, Neuquén - Patagonia 8316, Argentina`` (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Dec 16 at 2308, RAE Portuguese via WRMI, but not DX program this week, rather talking about natureza, 2318 florestas tropicais; S9+30/40 (Glenn Hauser, OK, WOR)

** ASCENSION [and non]. 11810, Dec 17 at 0645, JBA carrier is the SSOB; per EiBi BBC English this hour only to CAf. Only othersig is even weaker 11760, Cuba or China (Glenn Hauser, OK, WOR)

** BRAZIL. 9818.56, Dec 16 at 2312, carrier with heavy het against 9820.0, no doubt R. Nove de Julho (Glenn Hauser, OK, WOR)

** BRAZIL. 11757.58, Dec 15 at 2318, JBA carrier from presumed R. Voz Missionária drifting upward, now hetting dead air from Cuba 11760.00 (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Dec 11 at 0753, no signal for RNA token English; 6180 is VP with music. Paul Walker, McGrath AK, says: ``Even though most won't notice, 11780 Brazil is still operating at half power of 50 KW; they got new tube but they were no good so the old one back in operation right now. They've been operating this way for a month. I`m not a math guy, but someone told me its only 3db difference between 100 and 50 kW. I've noticed almost no difference up here`` (Glenn Hauser, OK, WORLD OF RADIO 2325)

** BRAZIL. 11780, Dec 13 at 0725, RNA is on already with music, S8/S3 and the SSOB (Glenn Hauser, OK, WOR)

** BRAZIL. 28197.5 CW, Dec 16 at 2258, quick check of 10m hears nothing but a JBA beacon ending in /B. Only one fits in the WGB list and also as of today! but consider it tentative: ``28197.5 PY1BBM/B - Saõ {sic} Conçalo RJ BRA GG87le - #0 (16 Dec 2025) Note: de + ID only + 3" carrier - Was on 28240`` (Glenn Hauser, OK, WOR)

** BRAZIL [and non]. 28394 USB, Dec 17 at 2307, Denis in Santa Catarina working weaker JF1EHM in Yokohama. QRZ.com:

``PP5JDS Brazil flag Brazil, Associação de Radioamadores de Jaraguá do Sul - ARJAS, Rua Luís Spézia, 120, Jaraguá do Sul, SC 89253210, Brazil``

``JF1EHM Japan flag Japan, Ishida Hiroaki, 2-5 Yoshino-cho, Minami-ku, Yokohama-city, Kanagawa, 232-0014, Japan`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28395 USB, Dec 12 at 2306, PU2KNM in SP calling CQDX. QRZ.com: ``PU2KNM Brazil flag Brazil, CLAUDIO, RUA:PAULO NEDOPETALSKI 215 BAIRRO ALTO DA TENDA, APIAI, SP 18320000, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 346 MCW kHz, Dec 17 at 0700 UT, carrier detected here but can hear dash and YXL beacon IDs tuned only to 344 USB, rather than a real 344 station, JA or JL. YXL = Sioux Lookout, Ont. Usually hear it tuned to 346 USB (Glenn Hauser, OK, WOR)

** CHINA. 5980, Dec 17 at 1457, JBA signal presumably CRI Japanese via Xianyang site at 1500-1557, still JBA at 1513, JJBBA at 1541 (Glenn Hauser, OK, WOR)

** CHINA. 9695, Dec 12 at 2300, Japanese but spelling out something with English letters, strange behavior for onlything listed, CRI in Japanese from Jinhua site. But was also hearing JJ just before 2300 when nothing is scheduled. Noticed as I was perfunctorily checking whether Spain finally turned on its NAm frequency 9690? Of course not! (Glenn Hauser, OK, WOR)

** CHINA [non]. 6180, Dec 16 at 2321, S9+20/30 of dead air, some music JBA underneath which may be // 11780 Brasil. DA likely Cuban relay of CRI which is scheduled only at 0100-0300 (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1040 kHz, Dec 11 at 0736 UT, whooper audible under WHO. Quite some time since I`ve heard that anywhere (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 11 at 1550, windhowl only at S9+5; 15230 JBA Spanish S4/S5; 11760 S5/S6 JBA or dead air. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Dec 11 at 1953, S6/S8 of deadair without windhowl from RHC direct. No other frequencies even on the air, making it even easier not to broadcast English at 2000. 11760 still DA at 2001 into Georgia SDR, S9+15/22. Something`s always wrong at RHC (Glenn Hauser, OK, WORLD OF RADIO 2325)

** CUBA. 5025, Dec 12 at 0727, S9+5/25 of dead air in Spanish from R. Rebelde. Often missing completely, but tonight, halfway there! SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 12 at 1520, RHC windhowl only, S8; 15230 JBA music S3/S4; 11880 talk JBA S4/S5, maybe not Cuba. Still not hearing 13780 anymore at anytime. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140 windhowl only and 11880 dead air, as usual, Dec 12 at 1959 tune-in, just in time for no English, from RHC, where SAWA. 15140 & 11880 the same at 2055 (Glenn Hauser, OK, WOR)

** CUBA. 5025, Dec 13 at 0712, S9+25 of dead air in Spanish from R. Rebelde: something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 9710, Sat Dec 13 at 0723, S9/S4 of dead air, no doubt RHC where something`s always wrong; maybe trace of some understation? More likely on Sunday only Vatican in Ukrainian. One of few signals on band besides USA on 9395, 9330 (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 15 at 1552, RHC Spanish with windhowl, S9+10/20 direct. Also clear Spanish about US & Venezuela S5/S7 on 15230, S7/S9 on 11760, and no other frequencies. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 15 at 1955, S9+10/20 RHC Kriyol with windhowl, and in clear on S9+15/20 11760, direct. 1959 IS, 2000 *still modulating!* intro and into ``first`` English hour with Ed Newman; previews later `Scientific and Medical Review`, `news` past 2008. Slight distortion and breakup at times on 11760, but for a long time had been cutting to dead air this hour instead of English. Oh oh, about 2010 cut modulation, carriers still on, with 11760 audiblizing underneath FRANCE in Hausa at 2000-2030 only. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Dec 15 at 2317, S9+20/30 of dead air from RHC, where something`s always wrong (Glenn Hauser, OK, WOR)

** CUBA. 15230, Dec 16 at 1537, only RHC frequency found, S4/S7 direct, ``música cubana``, plug RHC since 1961 -- so their 65th anniversary is imminent; how flime ties (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 16 at 2259, S9+20/30 of windhowl, DA or maybe JBM underneath. Only RHC frequency found (Glenn Hauser, OK, WOR)

** CUBA. 9710, Dec 17 at 0648, S5/S6 of dead air, presumed RHC. Also 11760 at 0645 JBAC, Cuba or maybe China? 5025 at 0657, S9+15/20 of dead air in Spanish from R. Rebelde. Something`s always wrong at RHC and RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 15140, Dec 17 at 1544, RHC music S9 with windhowl; 15230 music clear but only S5/S6. At 1547, 11760 music S7. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11880, Dec 17 at 2005, RHC English S9 direct and not cut off yet, while 15140 is S9+30 including windhowl. At 2011 into Georgia SDR, 11880 is VG S9+15/22, and 15140 with howl S9+20/27. 2028 next check, 15140 drops mod at 2028.5 and off air at 2029*. 11880 is still on with dead air, but soon mod cuts back on, and 15140 is still off. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Dec 17 at 2316, RHC howling only, S9+30, but 11880 VG S9+30 in Spanish; no 15 or 13 MHz or 9 MHz on. SAWA (Glenn Hauser, OK, WOR)

** CUBA [non]. 9490, UT Tue Dec 16 before and after 0200, NO signal from R. República via RMI via Issoudun. Used to be 7 dpw but now with conflicting lesser listings: HFCC 01-02 & 02-03 Sun & Mon only; but WRMI skedgrid claims 02-03 on Sat/Sun/Mon - so those are the DOW and HOD we need to check (Glenn Hauser, OK, WOR)

** CUBA [non]. 9490, re my not hearing R. República via RMI via FRANCE, Richard Langley, New Brunswick, replies: ``I've been checking nightly for the past several weeks. It's only on Sunday evenings (Monday UTC). And the signal strength is not like it used to be, 0200-0400 UTC. A different time slot than in the HFCC listing. No discernible jamming currently at my QTH`` (Glenn Hauser, OK, WOR)

** CUBA [non]. 11930, Dec 17 at 1458, caught fragment of R. Martí ID with SW frequencies, which they rarely specify, for good reason, as they change a lot during the day and from season to season. The only one I catch is ``13605``, which is an A-, not B-season channel! It really uses 13570 and/or 13820. WOR iogroupies who have visited Cuba say people there are not very interested in listening to it, may be more for Cubans in Miami (Glenn Hauser, OK, WOR)

** LUXEMBOURG. 6140, Dec 13 at 0715, S7/S9 of choral music and talkover in uncertain language. Only thing listed is R. Gloria, Switzerland on this recently activated low-power transmitter I was not expecting to hear so easily; at 0600-1700 per Aoki, 0659-2100 per EiBi, likely the latter (Glenn Hauser, OK, WOR)

** LUXEMBOURG. 6140, Dec 14 at 0728, song at S6/S7 direct. Presumably again R. Gloria, Switzerland via R. Onda, which is registered in HFCC as only 1 kW, non-direxional. Hard to believe what I am hearing is not running a lot more power than that. Also reported by Gianni Serra:

``6140 LUXEMBOURG Radio Gloria, Junglinster, in German, 12.13.2025 0654-0706 (6139.989 - .990 kHz per UTwente, poor/almost fair with 5.59 kHz audio filter), slow music and slow chorus chant, from about 0701 man brief unclear talk, then woman unclear talk (presumed religious sermon); heard better in USB/LSB sync with 2.3 kHz filter, almost

steady poor signal, moderate to louder QRN rustle, QRM moderate buzz in SSB sync (loud buzz in AM), poor / from about 0700 very poor with audio up and down the QRN threshold; in // < https://radiogloria.ch > (website is in German) with some seconds of delay from 6140 kHz; more news in German about Radio Gloria on shortwaves: <https://radiogloria.ch/empfang/> (at the bottom of page) (Gianni Serra – Roma, Italy – with Tecsun PL-990X)`` (Glenn Hauser, OK, WOR)

** MEXICO. 660, Dec 12 at 0707 UT, ``Esto es ABC Deportes``, then, what else? a song in English. Not the first time I`ve hit such a non-ID in random tuneacrossing; must be frequent. I.e., XEFZ, Monterrey NL, 10/1 kW allegedly, but dominating the channel now rather than KTNN or anything USelse (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 1000 kHz, Dec 17 at 0709 UT, Mexmx vs WMVP Chicago ESPN sports talk. Spanish occasionally peaks, and no sign of KTOK OKC with C2CAM, which has a poor night signal here, until 0722. Several SS announcements such as 0743, but just cannot pull an ID vs the QRM. NRC AM Log shows three USA SS on 1000, all low-power daytimers, in MA, NC; and TX, KBIB Marion which may be close enough, but MA and TX stations are also RELigious. IRCA Mexican Log has three, surely not the Chiapas. That leaves XEOY $tereo Cien, CDMX, 50/20 kW; and XEFV Juárez, 1/1? kW, La Rancherita; by format that leaves XEFZ, as XEOY is supposedly English CHR (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13755, Dec 11 at 0723, RNZP Melanesian, starting Vanuatu news sponsored by a bank there: so is this officially a commercial station? Only S4/S5. Used to inboom unlike anything else on band, but not lately. This does not exactly match program sked for this particular day, in UT +13:
https://www.rnz.co.nz/international/schedules/20251211

``8:08 PM. Pacific Waves
A daily current affairs programme covering the major Pacific stories of the week, with background and reaction from the people making the news.

8:28 PM. Melanesian Update
The latest news in Solomon Islands Pidgin (Tok Pisin), followed by BuzzFM News from our partners in Port Vila, Vanuatu.

9:00 PM. The Wantok Program
30 minutes of news and current affairs from ABC Australia from Monday to Friday in Papua New Guinea Tok Pisin, Solomon Islands Pijin and Vanuatu Bislama pidgin languages.`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6930 USB, Dec 16 at 2256, S9+20 direct of pirate music. 2300 jazzed-up Xmasmx: O Come, Emmanuel; 2303.6, ``you are tuned to Thunder Chicken Radio,`` with clucking SFX. 2318, Can You Hear What I hear, medley of carols on guitar. Many more reports here, mostly as unID:
https://www.hfunderground.com/board/index.php/topic,155454.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475 AM, Dec 14 at 0301, thintonations of Josiah on Station YHWH, JBA S7 direct. Ron Howard also remarked: ``YHWH at 0220, fair-good via S. Alberta!`` (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9025 AM, Dec 11 at 1554, FDR speech clips, narrative about WWII, music bits, from a documentary, S8/S9 direct but audio breakups. 1557 refers to his report about Yalta conference on March 1, 1945. 1559 mentions April 12, 1945 – the day FDR died and someone was born, but then off the air before 1600. Searching frequency at HFU gets several pirate hits in past few years: other presidential audio, from JFK, Coolidge:

https://www.hfunderground.com/board/index.php/topic,111911.msg350345.html#msg350345
Switching to W5TSU remote, the only OK, in OKC, hears nothing more during following hour (Glenn Hauser, OK, WORLD OF RADIO 2325)

** NORTH AMERICA. 15400, Dec 15 at 2315, thintonations of anti-Christ pirate, Station YHWH, S9 direct but undermodulated. Third time recently I`ve heard him around this hour, also Dec 5 & 10 - so every five days? No one else seems to have noticed. Not there Dec 16 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 960, Dec 17 at 0706 UT, local KGWA is OFF! Yet 100.9 K265FL translator is still on, RDS claiming to be ``KGWA-FM`` -- is that legal? and into C2CAM. How can it ``translate`` a non-signal?? See USA for what else I heard (Glenn Hauser, OK, WOR)

** OKLAHOMA. 93.1 & 95.1, Dec 12 circa 2030 UT, the dead air carriers in $tereo are still the same, peaking circa downtown Enid, and 1680 kHz Virtual DJ Radio continues to be JBA downtown but peaking circa US 81 & 412 junxion (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1680, Dec 17 at 2130 UT, within the small coverage area of Virtual DJ Radio in Enid, it`s OFF! Had been extremely reliable until now. We shall hear whether it`s permanent (Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed Dec 17 at *1500, YL NCS promptly opens Okla security net, her call WSHM692. Calls always fonetikaly, but so rapidly and without recording, not sure I have copied all correctly. Counts 1 2 3 4 5, 5 4 3 2 1, and then roll call, mostly with no answers: WQYW443; WQJT582 Broken Arrow; WQSY836 Vance? AFB; WN_V700 Durant answers; WNYW215 Ponca City; KNGR728 Pontotoc County; WPFY721 Seminole answers; WNBM839 Stillwater answers; WNBE830 Jefferson City MO. At 1507 she has completed rollcall, and says next net will be after holidays on Jan 7; belatedly WNBE830 chex in and some further contacts. 1509 WPFY721, says the Missouri net is at 9:30 am CT on first & third Wednesdays [like today but I do not try to copy that]. All clear at 1512. Most also give names: WNBE830 is Mike. They are all OMish voices, except for the NCS. Additional info from Don Moore`s previous logs: Broken Arrow as WQZT582. Ponca City as WNUW215. WSHM692 in OKC. WQSY836 as Beggs (Glenn Hauser, Enid, WOR)

** PERU [non]. 5980, Dec 13 at 0005, checking Lima SDR for any sign of R. Chaski activity -- nothing but weak DRM not decoding but IDed as TDF as scheduled (Glenn Hauser, OK, WOR)

** SPAIN. 12030, Wed Dec 17 at 2259, song and REE ID, S9+10/20 direct, and sufficient off back of ME beam as NAm {NOT ``Nam`` as in Viet; it stands for North America with a capital A} frequency 9690 is still imaginary; 17715 for SAm no longer alternative as JBA carrier, let alone to Af 17755 even weaker JJBBA carrier. 2300 timesignal, Spanish ID, English welcome claiming to be ``live`` with Alba Cuéllar and Daniel Riobóo. She has a lite accent and he has a heavy accent but fully understandable; previewing some topix: Venezuela/US battles in Caribbean; social media restrixions to teens as in Australia; 2302 news of the week summary. 2351 into UTwente, s/off to heavy rock music, he says ``we remember you``, meaning ``we remind you ---``, a typical Spanish/English confusion (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 12 at 2257, VOT IS & English IDs, S9/+10 direct, 2300 sign-on English. I don`t usually try this into Georgia SDR, but I have it running anyway, so at 2346, S9+10/20, better but still not as it should be in target area, `Did You Know That` yogurt was originally made by Turx? 2353 recheck already in IS, 2356 German IDs but 2357.5* chop, failing to provide any more extraneous German (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 13 sometime after 2300, quick check at UTwente confirms that VOT English is not off the air this time (Glenn Hauser, OK, WOR)

** TURKEY. 9660.008, Sun Dec 14 at 1751, VOT English only S7/S9 and noisy into Riyadh SDR, equally poor into UTwente ending `The Pulse of Turkish Foreign Policy`, and multi-lingual ID filler reel, 1754 music, 1801 ``always-by-your-side`` promo, and start `Letterbox`. Reception so poor that I can`t copy a lot of detail, but: Cemre says it was recorded Friday? 1) Alan Roe, England, will shortly issue his holiday programmmes on SW sked. 2) Anatoly Klepov, Moscow, another QSL request. 3) Canada. 4) Siddartha Papajarjee, India, asking if international-day-of- something is celebrated? 5) southeast Poland. 6) final: India, with international dx radio club. Now reception improves to S9+10 into UTwente, but 1818 goodbye and theme, 1819 ``with-you-every-hour`` promo (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 15 at 2310, JBA carrier direct, probably China instead of VOT; algo JBA on accidentalternate 9610. At 2354 into UTwente, just Chinese music and nothing on 9610. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Dec 16 at 2256, VOT IS, S9+10/20 direct, 2300 s/on in English as if it`s 1330 on 13635; something`s always awry at Ankara, but not off the air. Better reception than usual (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.002-, Dec 17 at 2258, VOT not off the air, S9/+10 direct with IS. At 2351 into UTwente when measured, S9+30/40 with music; 2354 s/off as if it`s the 1330 on 13635 for Europe, something`s always awry at Ankara, bit of IS to 2355* uncovering ChiCom music (Glenn Hauser, OK, WOR)

** U S A. 414 MCW kHz, Dec 13 at 0721 UT, GRN, 25-watt NDB at GoRdoN NE, new one for me (Glenn Hauser, OK, WOR) {Gordon is in far NW Nebraska near the SD border, on US 20 between Chadron & Valentine}

** U S A. 8992 USB, Dec 12 at 0736, USAF crypto exercise in progress, starting with SXSCDI.... Too late to wait for another clever tactical handle to be uttered (Glenn Hauser, OK, WOR)

** U S A. 24947 USB, Dec 17 at 2312, KQ4TPD working POTA = Parks on the Air. QRZ.com: ``KQ4TPD USA flag USA, Corey L Mosley, 10878 Cord Ave, Bay Minette, AL 36507, USA`` - sure not much activity on 12m band (Glenn Hauser, OK, WOR)

** U S A. 28222 CW, Dec 12 at 2301, beacon W1DLO/B, alternating slow and fast sending, right on frequency rather than as in WGB list: ``28221.5 W1DLO/B - Calais ME USA FN65je - #0/1/2 (09 Dec 2025) Note: VVV de ID + grid + Calais Maine + 9" carrier - 2 speeds CW``. QRZ.com page has huge list of equipment, and: ``W1DLO USA flag USA, Daniel L Owen, 27 Roundstone Dr, Glenburn, ME 04401-1209, USA

* 10m CW propagation beacon: http://qsl.net/w1dlo/beacon
You can find this beacon between frequencies 28.221 - 28.223 MHz with the center goal being on 28.221.8 MHz. This beacon is located less than 1,000 feet from the New Brunswick Canadian border which is also right on the line separating the Eastern and Atlantic time zones. It is also less than 10 miles north of the 45th parallel. (45 10'5"N, 67 14'39"W)`` (Glenn Hauser, OK, WOR)

** U S A. 28450 USB, Dec 12 at 2307, says ``K6GIL`` over and over and over, no other call, so is this his spoken ``beacon``? QRZ.com: ``K6GIL USA flag USA, GILBERT M "GIL" GARCIA, 79924 Memorial Place, La

Quinta, CA 92253, USA --- 73's and Mabuhay (Long live!) from Coachella Valley`` Has accent so must be Filipino as Mabuhay is Tagalog (Glenn Hauser, OK, WOR)

** U S A [and non]. World of Radio 2324 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, From the desk of Richard's listening Post, Radio: JRC NRD-535 HF, 1995, (30 years of service), Antenna: random long wires in the trees, Merry Christmas, Happy Holidays, WRMI, World of Radio (#2324):
9395 kHz, 0130 (4-55433) S9 signal, 0159, December 10 UTC 2025 [Wed]
9395 kHz, 0030-0059 lots of QRN, yes heard jingle, 0059, December 11 UTC 2025 [Thu] (Lemke, Richard -AB) 73's, Richard``

Confirmed UT Thursday December 11 at 0030 on WRMI 9395, no signal into Athens Georgia SDR, too close; S9+15 into N9AZZ IL remote, but faded out by 0056! Then I still get it direct, only S9.

Also confirmed UT Thursday December 11 at 0130 on WRMI 5010, S6/S9 into Costa Rica SDR which is new with quick timeout but none other in CAm.

Also confirmed Thursday December 11 at 1730 on SW Radio Gold, Germany, 3975.001+, S8/S9 into UTwente, but 6160 inaudible vs 6165 splash. 6160 is S9/+10 into Bedford UK remote.

WORLD OF RADIO 2325 contents: Alaska, Australia, Brazil, China, Cuba and non, Finland, France, Germany, Indonesia and, Iran, Japan, Netherlands, North America, Norway, Poland non, (Romania), Russia and non, Spain, USA and non, Vatican, unID 15391.1, tracking Monarx, radio/DXing in novels and TV; propagation outlook - (countries mentioned along with others not in order)

One may also contribute, not necessarily in US funds via PayPal to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2325 monitoring: confirmed first SW broadcast, Friday December 12 at 1325 the 1300 on WRMI 15770, JBA S5/S6 direct, but following program was more audible.

Not confirmed Friday December 12 at 2130 on IRRS SW via AM Italia, 1322.997, into UTwente, except for first few syllables: ``This is Gl----``, cut and soon music fill, never to resume during the semihour. I`ve notified IRRS HQ about the problem, so further repeats can be OK. Next:

** U S A [and non]. WORLD OF RADIO 2325 monitoring: confirmed Friday December 12 at 2300 on WRMI 9955, S9/+10 direct, as always seeming undermodulated compared to comparable signals. But not off the air this week.

Also confirmed Friday December 12 at 2332 the 2330 on SW Radio Gold, Germany, JBA S7 into UTwente, no better at recommended Bedford UK SDR, but somwhat better S9/+5 at 2337 into Noale, Italy SDR I normally use for AM Italia 1323.

Not confirmed UT Saturday December 13 at 0400 on WTWW 5085, rather again replayed previous week`s WOR #2324, to completion followed by 5+minutes of music before shutoff. Once again I have asked them to make it good by playing 2325 at the same time Sat or Sun night = UT Sunday or Monday.

Confirmed Saturday December 13 at 1533 the 1530 on SW Radio Gold, Germany, 3975.002-, S7/S9 into UTwente; and 6160.000 S7/S9 but heavy ACI from China 6165.

Confirmed Saturday December 13 at 1630 on WRMI 9955, S6/S8 and noisy into Maryland SDR. Next:

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2325 monitoring: confirmed Saturday December 13 at 1700 on WRN North America stream, and via WRMI 9395, S5/S7 into Maryland SDR, inaudible on 7730. But I can confirm 7730 via Georgia SDR, S7/S9.

Also confirmed Saturday December 13 at 1830 on SW Radio Gold, Germany, 3975.002, S7/S9 into UTwente; 6160 remains off, taken over by ChiCom music.

Also confirmed Saturday December 13 at 2030 on WRN North America stream, also via WRMI 9395, into N9AZZ Illinois remote. And also still not on WRMI webcast of (9955) despite schedule, rather music.

Also confirmed Saturday December 13 from 2031 on WA0RCR, 1860 AM, MO, S7 into N9AZZ Illinois remote; less noise problem than usual at first but worsening before 2100.

Also confirmed Saturday December 13 at 2100 on WRN Europe stream.

Missed checking Sat Dec 13 at 2200 on WRMI 9395; anyone hear it?

Not confirmed Saturday December 13 at 2257 the 2230 on WRMI 15770, since that transmitter is still off the air! No signal into Maryland or UTwente.

Confirmed Saturday December 13 at 2257 the 2230 on WRMI 17790, S5/S7 into N9AZZ IL SDR.

Not confirmed UT Sunday December 14 at 0030 on webcast only of IRRS/IPAR/NEXUS/IBA: like Friday attempt, a few words from me and then silence, replaced by fill music. And at 0044 check some other talk program was running. I reminded IRRS once again about this as there are three more airings pending. And re-uploaded to their server in case my original got corrupted. Would anyone awake at 1030 UT Sunday please check whether the whole thing play on 9510, or at least the webcast. Mauno Ritola, Finland, replied: ``It's now 1050 and your show has continued without breaks since 1030`` - IRRS also advises that my original upload had a mistake in the file name, so my fault!

Not confirmed UT Sunday December 14 at 0400 on WTWW 5085, a possible alternate/replacement time since #2324, not 2325 ran 24 hours earlier at regular time; instead, stayed on with Truth2Ponder. WTWW later advised me that WOR may have run at some other time UT Sunday, and also appear at some time on UT Monday, 0400?

Also confirmed UT Sunday December 14 starting way late at 0509 UT the 0415v on WA0RCR, 1860 AM, MO, S9+5/12 into KM4RT SDR in west TN.

Also confirmed Sunday December 14 at 0730 on WRMIs direct: 5850 S9+30/S5; 7570 S9+25; 7730 too weak but probably; 7780 S8/S4; 15770 inaudible, but maybe on. At 0410 Maryland SDR had a weak signal, S5/S6, altho I had thought 15770 off the air earlier Saturday even in

daytime, maybe just bad propagation. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 9455 to NW;
0000 UT Monday WRMI 9395 to NNW;
0030 UT Monday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0400 UT Monday WTWW 5085 [maybe];
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;
0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2325 monitoring: confirmed Sunday December 14 at 2000 on IRRS SW via AM Italia, 1322.998, S8.5 into UTwente.

Also confirmed Sunday December 14 at 2100 on WRN Europe stream.

Also confirmed Sunday December 14 at 2247 the 2230 on SW Radio Gold, Germany, JBA into UTwente and into Bedford UK recommended remote.

Also confirmed Sunday December 14 at 2330 on WRMI 9455, S9+10 into OKC remote.

Also confirmed UT Monday December 15 at 0000 on WRMI 9395, JBA into OKC remote, S9/+15 into N9AZZ IL remote.

Also confirmed UT Monday December 15 at 0030 on WRMI 7780, S9+15 into S Texas SDR.

Also confirmed UT Monday December 15 at 0030 on WRMI 9455, S9+5/20 into S Texas SDR.

Also confirmed UT Monday December 15 starting early at 0358 on Area 51 via WBCQ, 5130-, S9/+10 into Georgia SDR; Unfortunately, 5130 has to sign-off at 0400. But WOR continues on Area 51 stream.

Also confirmed UT Monday December 15 at 0400 on WTWW 5085, S9/+10 into Georgia SDR. Tnx to WTWW for `making good` with this special airing since 48 hours earlier the wrong previous week`s show re-aired. Next:

2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2100 UT Tuesday IRRS SW via AM Italia 1323;

0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2325 monitoring: confirmed Monday December 15 at 2031 on SW Radio Gold, Germany, 3975.002, JBA into Noale, Italy SDR, not audible at UTwente nor recommended Bedford UK SDR.

Also confirmed UT Tuesday December 16 at 0330 on WRMI 7780, S8/9+10 into Georgia SDR but VG S9+18 into S Texas closer to azimuth.

Also confirmed Tuesday December 16 at 1400 on WRMI 9955, S9 direct.

Also confirmed Tuesday December 16 at 1500 on WRMI 9955, JBA S6/S9 direct.

Also confirmed Tuesday December 16 at 2100 on IRRS SW via AM Italia, 1322.998-, S9+5 into UTwente. Next:

0030 UT Wednesday SW Radio, Germany 3975;
0130 UT Wednesday WRMI 9395 to NNW;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0030 UT Thursday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975 & 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2325 monitoring: confirmed UT Wednesday December 17 from 0030.6 on Shortwave Radio Gold, Germany, 3975.002+, S6.5/7.5 into UTwente.

Also confirmed UT Wednesday December 17 at 0130 on WRMI 9395, S9+10/20 into Georgia SDR; at 0156 into N9AZZ IL remote, S7/S8.

Also confirmed Wednesday December 17 at 2030 on SW Radio Gold, Germany, S7/S9 into UTwente.

Also confirmed Wednesday December 17 at 2200 on WBCQ 7490 -41 Hz = 7489.959, S9/+10 into Maryland SDR; assertive Bible reader as if he believes that stuff, chopped off at 2200 for ID and WOR. Next:

0030 UT Thursday WRMI 9395 to NNW {confirmed};
0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975 & 6160.

As a noncommercial public service program, financial support appreciated. Thanks this week to Doug Brown, London, Ontario for a check on a US bank to Glenn Hauser, P O Box 1684, Enid OK 73702, and says, ``Thanks for all you do to keep our great hobby going (if only on life support)``

One may also contribute, not necessarily in US funds via PayPal to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, into W1NT NH SDR, Dec 13 at *0055 when 5130 -25 Hz = 5129.975 cuts on like clockwork with The Planet IS & ID loop, but it`s quite fluttery, very strange for such a close signal. 3265 not on. 6160 - 50v Hz = 6159.95 JBA with algo. 7490 -20 Hz = 7489.980 JBA S3! with FKB as clearly on stream. 9330.00 on contrary is S7/S9 in Brazuguese. On W1NT it reads out as 9330 -50 Hz so I know that SDR must be miscalibrated. Yes: WWV 10000 also reads out as -50 Hz, so I have corrected above readings by adding 50 Hz to the figures axually showing in SAM mode. At 0100, concedes that

following will be repeat of original airing on January 3, 2025! Wonder why they picked that one? Anyhow, never mind, see my report within: https://www.w4uvh.net/ghlogs_2025_0102_0108.txt
Before quitting I find that it`s airing on all four now: 9330, 7490-, 6160- and 5130- (Glenn Hauser, OK, WOR)

** U S A. 15770, Dec 13 at 1604, NO signal from this WRMI direct, nor into UTwente, nor into Maryland remote: must be off the air, unusual (Glenn Hauser, OK, WOR)

** U S A. 9455, VG Wed Dec 17 at 2203, VORW with John underway, as scheduled on System D, WRMI-11 - rather odd to break the M-F airings of RAE in Portuguese, still on Mon/Tue/Thu/Fri (Glenn Hauser, OK, WOR)

** U S A. 9955, Dec 17 at 2318, S9+20/30 of dead air direct on this WRMI-3, and still/again at 2350 check into Maryland SDR. System B sked during this hour are `Dialogando en el Camino` and `Frecuencia al Día`. Something`s odd at Okee (Glenn Hauser, OK, WOR)

** U S A. 9265, Dec 11 at 1955 no signal from WINB, but it`s on at 2003, S9+33 into Georgia SDR. Program sked shows starting at 1900 UT, but that`s a misconversion from 3:00 pm ET, really ∗2000 UT. America`s oldest SW station still is clueless about UT (Glenn Hauser, OK, WOR)

** U S A. 4840, Dec 12 at 0726, dead air again from WWCR-3, S9+30/45. Muted show sked now is `Renewing Your Mind`. But remodulating at 0735 when `Insight for Living` is on, the latter one quieted when last noted deadair. WWCR`s hours of dead air pale in comparison to Cuba`s, q.v. (Glenn Hauser, OK, WOR)

** U S A. 550, Dec 13 at 0729 UT, KCRS promos atop, Midland TX, U4 5/1 kW. Supposedly nulls thisaway at night (Glenn Hauser, OK, WOR)

** U S A. 790, Dec 15 at 0800 UT, ID as ``95.1 FM and 790, KFYO``. Sounded like KFYR but must have been KFYO Lubbock TX which is wagged by a mere translator K236CP on 95.1 (Glenn Hauser, OK, WOR)

** U S A. 910 kHz, Dec 17 at 0705 UT, ads for BrookingsAutomall.com, Brookings Radio, AM 910 ID. NRC AM Log shows Brookings SD address for: KJJQ, Volga SD, U4 500/500 watts. Both are in east central SD, between Watertown and Sioux Falls. Day pattern favors NNE/SSW, night pattern a notch to the SW, but maybe enough lobe to SSW (Glenn Hauser, OK, WOR)

** U S A. 960 kHz, Dec 17 at 0711 UT, in absence of local KGWA amid pileup I hear ``WERCFM.com``, i.e. WERC [AM], Birmingham AL, U2 5/5 kW. Night pattern favors south, notch to the NW maybe far enough off our WNW direxion (Glenn Hauser, OK, WOR)

** U S A. 1140 kHz, Dec 15 at 0754 UT, ad for a liquor+ store sounds like Willikens?, finally mentions Sioux Falls. Google thinx it`s WilLiquors. Anyhow this must be KXRB U2 10/5 kW. Night pattern favors west to NW to north, with a notch to the SW but a minor lobe toward Yankton, maybe what I am getting if not ND day pattern and power. Site is axually in SD (Glenn Hauser, OK, WOR)

** U S A. 1310 kHz, Dec 17 at 0718 UT, weather for Hutchinson from KGLB. What? Not aware of any such station in Hutchinson KS, especially with second-adjacent 1290 KMMM Pratt pretending to be a Hutch station. No, per NRC AM Log, KGLB is in Glencoe, near Hutchinson, south-central MINNESOTA between St Cloud and Mankato, WSW of MSP; U4 2500/270 watts. Day and night patterns broadly favor the South to SSW (Glenn Hauser, OK, WOR)

** U S A. Re: ```1569.82 kHz, Dec 8 at 0749 UT, JBA carrier hetting 1570.00 XERF and anything else. For once we have a contemporary hit at mwoffsets: ``1570 1569,825 USA WLRS New Albany IN [1569.6-] 2025-11-09`` Is U1 1500/233 watts. See also my recent log: ``UNIDENTIFIED. 1569.81, Nov 22 at 0736 UT, JBA carrier hetting 1570.0 stations`` (Glenn Hauser, OK, WOR)```

``WLRS IDed here in IL tonight below 1570 so there is no doubt. Neil Kazaross, 0300 UT Dec 16, IRCA`` (Glenn Hauser, OK, WOR)

** URUGUAY. 28492 USB, Dec 12 at 2311, CX2TQ, Paul, with 40 watts, QRZ.com: ``CX2TQ Uruguay flag Uruguay, (Paul) JOSE PABLO AMENDOLA CARRASCO, RINCON 39, ROCHA - CP: 27000, Uruguay`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.57, Dec 13 at 0736 UT, JBA carrier hetting 810.0 WHB varies slightly, now measured here (Glenn Hauser, OK, WOR)

UNIDENTIFIED [non]. 869.60, Dec 14 at 0258 UT, JBA carrier hetting WWL 870 - which is never the bigsig it used to be - but it disappears when I turn off a nearby TV! Other offset MW carriers I am getting I still think are real, but need to re-test them that way if the TV also be on (Glenn Hauser, Enid OK, WOR)

UNIDENTIFIED. 5980, Dec 12 at 1330, no signal direct, not even R. Martí; still trying to confirm or replace a report of R. Chaski, Perú before 1400 into Arizona. At 1500 however a JBA carrier, presumably as in EiBi, CRI Japanese at 1500-1600 only via site x. Need to check OA4DFF SDR especially in daytime during hours when Chaski might be on: 11-02 per WRTH, or 10-15 & 22-0103 per Aoki. Nothing there at 1705 Dec 12. IIRC Lima has a very quick timeout. And it`s labeled 6.5-30 MHz, presumably meaning not so good below 6.5.

By 1515 a few other lingersigs on 49m, JBA carriers: 6075 CNR1 vs Taiwan; 6145 several China and Taiwan; 6180 some Chinese JBA, again both Taiwan and Chinees possible (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6251 approx., Dec 12 at 0732 tones repeating, sort of musical but presumably ute; tuned in USB but can`t pinpoint it. Same kind of thing encountered again at the late hour of 1516 when an AM carrier put it on 6250.6 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6924.9 AM, Dec 15 at 2324, S9+20 of dead air, or JBM? Likely pirate but none currently reported in HFU. Earlier there was a USB on 6925; later Dec 16 at 0240-0249* and 0308-0312*, David Ross, Ont., reported an unID {sic} mentioning ``Elbows Up`` and pro-Canada on ``6925 AM`` {sic} (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11455-11510 approx., Dec 15 at 1555, multi-carrier, multi-tones beating against each other, peaking S9+25, as I have reported recently in this range, and various others such as circa 17450. Kevin Cozens also inquired about this to the ODXA iog:

[odxa] ``Very strange signal above 11 MHz being heard now [1454 UT Dec 15] Greetings, all. I hope there are some people in the southern Ontario area that can help identify a strange signal I'm hearing for the second time.

I live just north of Toronto and I'm hearing a signal that peaks at S9 that stretches from 11440 all the way up to 11540 kHz. Around the peaks it is a bit raspy but otherwise no modulation to speak of. Not that I can detect from the audio. I don't have a panadapter or spectrum analyzer to look at the signal. The signal is being heard as of 9:35 am ET [1435 UT Dec 15]

This is the second time I've heard this signal. Last time was on December 11th when it was heard at S8 between 11510 kHz and 11570 kHz. That signal was first heard around 9:30am ET but gone when I listened for it after lunch.

The signal strengths I'm reporting is as indicated by a Grundig Satellite 800 located in a second floor bedroom using just the built in whip antenna. Does this have anything to do with the Canadian OTHR system that was mentioned here before? -- Cheers! Kevin``

ISADUDE replied: ``This appears to be the HF financial trading signal that is in development. The data could be from the Illinois area being sent to England, or so they say. The UDXF group on groups.io speak of it often. I don't believe it's fully running as of yet, just in the testing stage, but in UDXF there are more enlightened individuals who can assist you further``

``Could this be the same signal I am hearing on 13560 - Ron trotto wx4kwi`` - ``As for 13560, I have constant 24/7 weak digital signals there which are RF ID scanning devices at unknown nearby stores, as in EiBi: `13560 0000-2400 XUU RFID devices /XUU` -- XUU meaning unknown locations. 73, Glenn Hauser, OK``

ISADUDE: ``I must be late on the 13560 khz because I have it clear here at the moment [1625 UT Dec 15]. They do move these systems around the bands from what I understand. Supposedly faster data transfer than internet/telecoms but I am only relaying what I recall from those monitoring on the UDXF group. I have interests in monitoring other signals to those so I would suggest going to their site and asking for more help`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11503-11558 approx., Dec 17 at 1547, multi-carrier, multi-tones beating against each other, peaking S9+20 amid. What is this? Previous span heard was a bit lower on both sides of 11500. Good thing the Kurdo-Turko Radio War is over. UDXF has provided a huge frequency list, but too much info, and just shows specific frequencies, not wideband spans (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 25995 LSB, Dec 12 at 2320, maybe Brazuguese but only a few words recognizable, with beeps. Nothing on 25985 or 25955 heard before with Brazuguese CBers? Freebanders? (Glenn Hauser, OK, WOR)
